

PediatriCare Associates

Pediatric and Adolescent Medicine

Vaccines – PediatriCare Associates Policy Statement

PediatriCare Associates is committed to the care, well being and health of all our patients.

It is PediatriCare's policy that **all** of our patients age 5 and under be examined by a physician before given **Any Vaccination**. In the past, patients have been found to have an ear infection, bronchiolitis, wheezing.....just a few examples of the conditions that prevent an immunization from being given. Our physicians examine your child to make sure they are healthy enough to receive their shot, and not have an adverse reaction.

A minimal, non-wellcare, office visit will be billed to your insurance, along with the immunization. The minimal office visit is subject to your plan's co-pay, co-insurance and deductibles and will be your financial responsibility. The immunization itself will be processed under your plan's wellcare benefits.

Sincerely,

Scott Zucker, M.D. FAAP
Melissa Chism, M.D. FAAP
Kristina Hetling, M.D. FAAP
Lauren Brucia, M.D. FAAP
Lorraine Liberti, M.D. FAAP
Sania Perez, M.D. FAAP
Jessie Long, M.D. FAAP
Heather Shafi, M.D. FAAP

Jeffrey Bienstock, M.D. FAAP
