Vaccines – PediatriCare Associates Policy Statement

PediatriCare Associates is committed to the care, well-being and health of all our patients.

If your child is examined by one of our physicians, a minimal non-well care office visit will be billed to your insurance, along with the immunization.

The minimal office visit is subject to your plan's co-pay, co-insurance and deductibles and will be your financial responsibility. The immunization itself will be processed under your plan's well care benefits.

Sincerely,

Scott Zucker, M.D. FAAP
